Silver Series

Silver series Home Theatre packages are a step up from the bronze series with home theatre designed speakers and a receiver upgrade. It comes in two different packages; both packages consist of a quality receiver by multi-award winning company Cambridge Audio. In the V1 package, the Cambridge Audio receiver is accompanied with three HomeTech oval LCR speakers and a pair of the HT603R's for the rear. In the V2 package the Cambridge Audio receiver is accompanied with HomeTech THX certified in-wall 6.5" speakers.

The Cambridge Audio 640R

The Cambridge Audio 640R 7.1 multi-channel home cinema receiver is a remarkable piece of equipment which uses the company's legendary build quality and then embraces the latest

HDMI technology to produce a truly great home cinema receiver. The 640R produces an all round multi-channel surround sound performance whilst maintaining Cambridge Audio's renowned musical reproduction.

HomeTech LCR Oval Speakers

The HomeTech LCR Oval Speakers are the same spec as the HT603R but are in an oval shaped surround allowing the speakers to be directed straight at the main listening position.

HomeTech HT603R In-ceiling Speakers

The HomeTech range of speakers is by Sonance. The HT603R's have a very similar spec to the Sonance CR101's but can handle a little more power, meaning you can listen to your DVD just that bit louder. It also has a pivoting tweeter allowing the sound to be directed straight at you.

HomeTech HT THX In-wall Speaker

The HomeTech HT THX is a 'THX Select' certified in-wall speaker designed for Left, centre and right channels in a home theatre installation. This speaker is rated at 125watts power handling. To find out more about THX visit www.illuminate.co.nz/thx.php

HomeTech HT THX Surround In-wall Speaker

The HomeTech HT THX Surround is a 'THX Select' certified in-wall speaker designed for the surround channels in a home theatre installation. This speaker is rated at 125watts power handling. To find out more about THX visit www.illuminate.co.nz/thx.php
